- Engaging activities that will introduce you to the core aspects of the IBDP and IBCP.
- Interactive taster sessions across a wide range of IBDP subjects.
- Sports, cultural visits and fun activities in Cambridge.

The IB Diploma Programme provides a broad and balanced educational pathway that develops independent, creative and open-minded learners who develop the attributes to flourish in higher education and employment. It is internationally recognised and, as such, enables students to travel, study and work successfully across the world with confidence. We would strongly encourage students considering this route to take part in “Explore IB” so that they can see for themselves everything that IB has to offer.
