

JULY IN OXFORD, UK

How to succeed in a changing world! LIGC is an exciting and empowering Oxford summer course for 15-18 year-olds interested in the career opportunities presented by today's biggest global challenges.

"I found the course really inspiring and it pushed me to think further than I usually do to problem solve and come up with my own ideas for a sustainable society. I loved the interviews with scientists and hearing their stories and aims. I now have a wonderful network of like-minded friends."

LIGC STUDENT, 2018

KEY FEATURES

- Hosted by Oxford University's Environmental Change Institute
- Engaging with ECI scientists, and experts from Oxford's burgeoning sustainability business network
- Developing skills in critical thinking, analysis, and effective written and spoken communication
- Learning skills and knowledge relevant to all school subjects, university courses, and future careers
- Understanding what sustainability entrepreneurs are doing and developing your own ideas
- Participating in an Oxford Citizen Science project.

LIGC
