

JULY IN CAMBRIDGE, UK AND BOSTON, US

Consolidate your year-one IBDP learning, prepare for your final year, and build your confidence through inspiring social and cultural experiences.

Start your year a step ahead by reviewing a full year of material in a short period of time. Our expert teachers will link together parts of the syllabus that are often taught months apart during the academic year. By weaving together concepts and theories, you will be able to see how a subject fits together and will develop a more comprehensive understanding.

It's not all work though! You will love tasting life at a world-leading university and you will have an amazing time making friends from all over the world on your OSC social programme.

KEY FACTS
