STUDY SCHEDULE

__/__/__ - __/__/__

TOP TIPS

- Start by writing in commitments, like sleep, play rehearsal, etc.
- Set your priorities: spend the most time on things you need to study the most.
- Plan in regular breaks. If you are studying for 30 minutes, focus for 25 minutes and break for 5.
- Don't spend more than 2 hours at a time on any one subject. But do group similar subjects together.
- **SUPER IMPORTANT:** be kind to yourself. If you 'mess up' one day, don't quit!
